

Bake Bread Miner

Innovative DeFi on Binance Smart Chain Up
to 2% daily return and 2% referral bonus
Fully Verified and Audited Contract

White Paper

V1.0

What is the price of Bread?

Bread do NOT have a set price.

Higher TVL more Bread per USDT, Lower TVL less Bread. This creates level playing field so no user can be late. There is NO calculator available to work this out.

What will my daily percentage be?

Daily percentage is up to 2%

This depends on eating habits, the time of day you re-Bake or deposit and TVL fluctuation. Average daily return is 2-5%

Why are my rewards not growing?

Eating habits effect rewards, you eat too much your daily percentage drops. If you only started with a small deposit it will take time to display on the dApp. Only goes to 3 decimal places. TVL daily increase can cause lower daily percentage

What happens if I always eat?

If you always eat your daily percentage will drop dramatically and will not receive the highest daily returns. This is the anti-whale mechanism that preventing a whale draining the TVL

Is re-Bakeing more often better, 2 or 3 times a day?

Re-Baking is the same as compounding. so essentially yes. You will need to pay standard BSC gas fees for every re-Bake.

What are 'Bread'?

Bread are the miners that are hired with USDT and work to get your rewards. This is just a term we decided to use.

Crypto OGs will know 'Bread' as USDT

Can I get my initial back?

Bake Bread Miner is a locked rewards pool, so no. You get your initial back over time through the my rewards section of the dApp

How come my referrals aren't showing | Where are they?

Your referrals show up in the 'My Rewards' Section of the miner dApp. Referrals are 2% of the deposit. 1 USDT deposit equals 0.02 USDT

What are the fees?

There is ONLY 1% dev fee taken upon ALL deposits and withdraw from Bake Bread Miner.

Standard BSC network gas fees are required for EVERY transaction made deposits, withdraws and re-Bake!

Do Bread amount decrease when you eat?

No, the 'Bread' amount will not change. If you make a new deposit or re-Bake the amount will increase but not when you eat (take rewards). The 'Bread' are less efficient over time if you eat too much

Is this sustainable?

Yes, as long as there is TVL in the contract then there will always be rewards. The hungry people who eat too much get punished and get lower and lower rewards. It will last a long time the higher the TVL is

What is the best strategy?

We recommend the tried and tested method as in it is written in the contract.

Re-Bake 6 days and eat 1 day a week. It will compound your investment and receive your initial back in 3-5 weeks

What prevents the devs from rug pull?

The contract is immutable and fully audited by Haze Security. Therefore, cannot be changed or altered in any way shape or form. It is audited and verified. You can view this on bscscan.com and the audit is found on the website

The 6/1 Strategy explained?

It is 6 days not 6 re-Bake. In those 6 days yes you can re-Bake as many times desired.

It is just compounding faster.

Is it too late to invest?

No, the contract is written to provide an optimal entry for any and all users, new or old. This is the reason the Bread per USDT amount changes frequently with TVL fluctuation to provide an even playing field for any new user coming to Bake Bread and not giving the first users ahead start

Can contract functions be added?

No, the contract is immutable and cannot be changed. The contract works perfectly well as it is.

No wallets can be blacklisted, no forcing people to re-Bake 6 days and eat 1 day a week. Nothing can be changed

Does it have an anti-whale mechanism?

The contract has an in-built anti-whale mechanism.

This works as follows; User 1 re-Bake 6:1 gets highest daily percentage in that 24-hour period. User 2 does 5:2 gets a lower percentage. User 3 does 4:3 gets lower percentage again. This happens all the way until the user who eats continually rewards will drop to 0.5% per 24-hour period. This is to prevent 1 user draining the TVL, creating sustainability

What is the minimum deposit?

0.01 bnb minimum deposit requirements.

If there are rewards in the "My Rewards" section and you make a new deposit both the new deposit and rewards are transferred into Bread

What is minimum re-Bake?

There is no minimum re-Bake requirements.
You will always BE CHARGED standard BSC BEP20 gas fees for every interaction with the contract

What's the roadmap long term?

Bake Bread aims to become the largest Dapp on Finance Smart Chain. Bake Bread will integrate with large swaps such as Pancakeswap in the near future.

Bake Bread will have a plan for releasing token and airdrop to all early investors of Bake Bread Miner.

****DISCLAIMER****

We DO NOT guarantee 5% a day it is up to 5%. Bake Bread Miner is illegal in certain countries please consider this when investing.

Do not invest more than you can afford to lose.
